International Financial Reporting Standards: A Framework-based Perspective links broad concepts and general accounting principles to the specific requirements of IFRS to help students develop and understand the judgments required in using a principle-based standard. Although it is still unclear whether the US will adopt IFRS, the global business environment makes it necessary for accounting students and professionals to be bilingual in both US GAAP and IFRS. This comprehensive textbook offers: A clear presentation of the concepts underlying IFRS A conceptual framework to guide students in interpreting and applying IFRS rules A comparison between IFRS and US GAAP to develop students' understanding of the requirements of each standard Real world examples and case studies to link accounting theory to practice, while also exposing students to different interpretations and applications of IFRS End of chapter material covering other aspects of financial reporting, including international auditing standards, international ethics standards, and corporate governance and enforcement, as well as emerging topics, such as integrated accounting, sustainability and social responsibility accounting and new forms of financial reporting Burton & Jermakowicz have crafted a thorough and extensive tool to give students a competitive edge in understanding, and applying IFRS. A companion website provides additional support for both students and instructors.

While there is growing interest in IFRS within the US, interest outside the US has exploded. Weygandt's fourth edition of Financial Accounting: IFRS highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygandt Financial have come to rely, while putting the focus on international companies/examples, discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely U.S. dollars.
