A fainting goat is a medium sized goat and is one of the most interesting one among various goat breeds. It is also known as the myotonic goat, nervous goat or scared goat. You see, when this goat is shocked or surprised, its muscles freeze for 10 seconds and it simply tips to one side. This is a rather dramatic sight that has made the quirky breed popular. Besides this, these goats can produce good quality milk and are known especially for their reproduction abilities. The goats also have a certain body conformation that is distinct and sought after. It is important to understand when you are bringing home a fainting goat that this animal needs special care and attention. They are seldom found in the urban set up. They are usually raised in large numbers on farms and also in designated commercial set ups where there is ample professional help available to take care of these animals. If you are planning to bring a goat home, on the other hand, you must invest a lot more time doing your homework and research about this animal in the first place. You must be sure that you can take on this responsibility before you make a commitment. This book is perfect for a first time fainting goat owner. Covered in this book: - History - Things you must know - Where to buy - Making a home for your goats - First days at their new home - Housing - Daily care - Seasonal care - Feeding - Grooming - Understanding goat behavior - Training - Transport - Milking - Breeding - Health and well being and a lot more.

The purpose of this manual is to document methodology and to serve as a reference for the laboratory analyst. The standard methods described in this SSIR No. 42, Soil Survey Laboratory Methods Manual, Version 4.0 replaces as a methods reference all earlier versions of the SSIR No. 42 (1989, 1992, and 1996, respectively) and SSIR No. 1, Procedures for Collecting Soil Samples and Methods of Analysis for Soil Survey (1972, 1982, and 1984). All SSL methods are performed with methodologies appropriate for the specific purpose. The SSL SOP's are standard methods, peer-recognized methods, SSL-developed methods, and/or specified methods in soil taxonomy (Soil Survey Staff, 1999). An earlier version of this manual (1996) also served as the primary document from which a companion manual, Soil Survey Laboratory Information Manual (SSIR No. 45, 1995), was developed. The SSIR No. 45 describes in greater detail the application of SSL data. Trade names are used in the manual solely for the purpose of providing specific information. Mention of a trade name does not constitute a guarantee of the product by USDA nor does it imply an endorsement by USDA.

Yonge, Mrs Humphry Ward, and Margaret Oliphant - examining their self-contradictory responses to the debate about women's role in family life and society. Individual chapters review women's anti-feminism from 1792-1850, and fresh readings of their best-known novels emphasize the inconsistencies of their masculine and feminine ideals.
